

شركة النورس العربية الطبية

AL NAWRAS ARABIA MEDICAL CO.

CORPORATE BROCHURE

ABOUT US

AL NAWRAS, founded in 1988, one of the very first well-established companies in the sector of healthcare and life science in the GCC region.

We are committed to provide innovative solutions for our clients in the health care and life science sector, with cooperation with our partners to offer technological advancements that help facilitate their work.

WHY US?

Trust & Transparency

Ingenuity

Responsibility

Sustainability

OUR SOLUTIONS

LIFE SCIENCE & RESEARCH

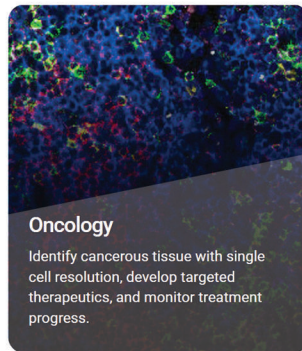

We commit to offer a wide variety of solutions for life science & research, starting from Equipments, Reagents and Consumables for PCR, RT-PCR, Digital PCR, Gel Imaging, Electro phoresis & Blotting, and all the way up to Flow Cytometry Instruments and Reagents, Elisa Research Assays, Stem Cell and Cell Culture Assays. In addition, Al Nawras team of specialised biomedical engineers and technicians will accompany you to cater your needs pre and post sales. We offer our assistance starting with advising the most suitable solution for your needs, product trainings and ultimately technical troubleshooting.

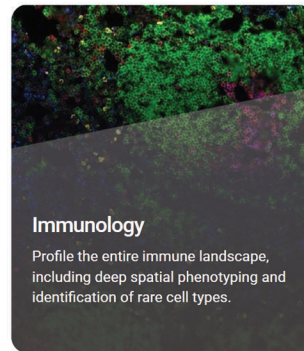

Discover Next-Generation Spatial
Transcriptomics, Proteomics & Genomics

**Best-in-Class Solutions for Spatial Biology
Research**

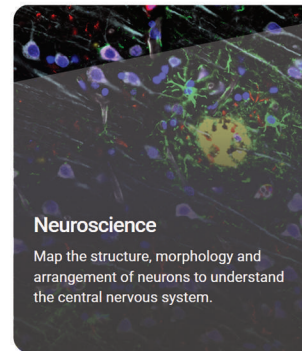

Oncology

Identify cancerous tissue with single cell resolution, develop targeted therapeutics, and monitor treatment progress.

Immunology

Profile the entire immune landscape, including deep spatial phenotyping and identification of rare cell types.

Neuroscience

Map the structure, morphology and arrangement of neurons to understand the central nervous system.

CellScape™ Precise Spatial Proteomics

Straightforward and flexible quantitative spatial proteomics with high resolution

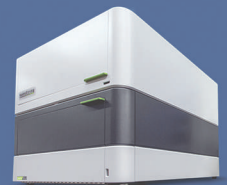

nCounter® Analysis Platform

Rapid, reproducible gene expression and multiomics insights for translational research

CosMx® Spatial Molecular Imager

High-fidelity spatial exploration of the whole transcriptome with subcellular resolution

GeoMx® Digital Spatial Profiler

Regionally customized high-plex multiomics for high throughput spatial discovery

HOLOGIC® Diagenode

Complete solutions for epigenetics research, biological sample preparation, and diagnostics assays.

- Automation - ChIP, DNA methylation, NGS library prep
- Bioruptor DNA and Chromatin shearing
- Validated ChIP, DNA methylation and NGS library prep solutions
- Ultra-validated ChIP antibodies

Bioruptor® Pico sonication device

Megaruptor® 3 DNA Shearing System

Recommended by PACBIO™

MOLECULAR & CLINICAL DIAGNOSTICS

BIOER TECHNOLOGY

Bioer provides integrated molecular diagnostics solutions — combining instruments, reagents, and consumables.

Instruments & devices: automated nucleic acid purification / extraction systems, real-time PCR / qPCR, dPCR, Digital PCR, thermal cyclers, dry baths, fluorimeters, POCT systems

Reagents & kits: nucleic acid extraction / purification kits, PCR / RT-PCR mixes, pathogen detection assays, IVD reagents

Saladax BIOMEDICAL

Revolutionizing Psychiatry and Oncology with Rapid Therapeutic Drug Monitoring
* High-Quality Assays for Rapid Therapeutic Drug Monitoring

Psychiatry:

- Clozapine
- Total Risperidone (measures Paliperidone)
- Total Aripiprazole
- Quetiapine
- Olanzapine

Oncology:

- Busulfan
- My5-FU

MICROSCOPY & IMAGING SYSTEMS

OPTIKA® ITALY

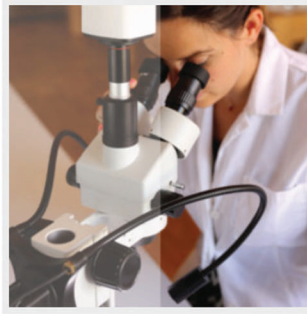

Optika (Italy) designs and manufactures microscopes, balances, and scientific instruments spanning education to industrial research.

Educational
Microscopes

Microscopes

Cameras
& Digital Solutions

Polarimetry &
Refractometry

LABORATORY EQUIPMENTS AND SUPPLIES

When it comes to Laboratory equipments & supplies, Al Nawras provides complete solutions to successfully setup and excute your laboratory. With our team of Experts, Engineers & Technicians, we have successfully furnished & launched laboratories in different fields, including the configuration, installation & training on the equipments.

orto alresa

Centrifugation Equipment

European manufacturers of laboratory centrifuges with more than 70 years of experience and worldwide presence.

*General Applications: Wide range of benchtop and floor centrifuges for **clinical, research, and quality control labs** with refrigerated and non-refrigerated options.*

*Special Applications: Dedicated models for **oil & petroleum testing, dairy/butyrometer analysis, microhematocrit, veterinary use, and other industry-specific standards.***

LTE Scientific is one of the most established and well respected manufacturers of laboratory equipment in the UK.

- Laboratory Autoclaves & Loading Systems.
- Laboratory Washer Disinfectors.
- Ovens, Incubators & Drying Cabinets.
- Environmental Chambers.

MELING | MEGSTEMAN BIOMEDICAL | SCIENTIFIC

Meling Biomedical provides advanced cold storage, biosafety, and cold-chain solutions for laboratories and healthcare

Cold Storage Solutions: Ultra-low freezers, cryogenic systems, blood and pharmacy refrigerators.

Biosafety Cabinets: Reliable protection for operators, samples, and the environment.

Cold Chain & Accessories: Vaccine storage, racks, and supporting consumables.

GILSON®

Gilson is specialised in developing liquid handling, purification, and extraction solutions with a focus on helping the life scientist at the bench achieve more productive research and verifiable data.

- Pipettes & Pipette Tips
- Liquid Handling Systems
- Extraction Systems
- Benchtop Devices

filtraTECH

Lab Filtration Products – Analytical sample preparation

- Cellulose filter papers
- Filtration devices
- Membranes
- Syringe filters
- Whatman microbiology testing
- Disk & Capsule filters

Benchmark Scientific

- Vortex Mixers
- Homogenizers/Cell Lysis
- 2D & 3D Rockers
- Rollers and Rotators
- Centrifuges
- Orbital Shakers
- Shaking Incubators
- Incubators and Ovens
- Temperature Control Baths
- Thermal Cyclers
- Sterilization
- Hotplates & Stirrers
- Cooling Blocks and Racks
- Accuris Instruments™

evermed

Evermed designs and manufactures medical-grade refrigeration and ultra-low freezers to preserve biological samples, pharmaceuticals and lab materials. As well as, mortuary chambers and body cold storage solutions, ensuring reliable preservation with advanced temperature control.

Leman Instruments

Leman Instruments provides high-purity gas generators and calibration systems for labs, industry, and environmental monitoring.

FORENSICS & CRIME SCENE

- Forensic Enclosures, Evidence Drying Cabinets and Fuming Systems.
- DNA Collection Devices, Swabs, FTA cards and Customized Collection Kits
- Specialized Devices for Threat/Chemical Detection
- Forensic Biological detection Kits & Drug Detection Assays.

Advanced **freeze dryers** for efficient and reliable sample preservation, along with specialized **forensic enclosures** that ensure safety, containment, and integrity in evidence handling. In addition, **fume hoods, biosafety cabinets, clean benches, and glove boxes**, offering complete solutions for laboratory safety and controlled environments.

FTA For collection, stabilization, processing, transport and archiving of biological samples

Indicating FTA Cards are intended for molecular biology applications in forensic, human identity, biosecurity and paternity testing. These products are not intended for the diagnosis, prevention, or treatment of a disease

Histology & Histopathology Equipment

Broad range of histology equipment to perform processing, embedding, cutting, and staining of tissues.

- Spin Tissue Processor
- Modular Tissue Embedding Center
- Semi (Automated) Rotary Microtome
- Automated Slide Stainer
- Microtome Disposable Blades

EMT Forensics delivers advanced forensic lab and crime-scene equipment for law enforcement and investigation units.

Mobile Bullet Recovery Center

Bullet Recovery Water Tank

Remote Trigger Station

Evidence Drying Cabinet

Cyanoacrylate Fuming Cabinets

Ninhydrin Cabinets

Down Flow Cabinets

FOOD, VETERINARY & ENVIRONMENT

- Pathogen Detection, by Real Time PCR testing.
- Specific Tests as Meat Species Identification, GMO testing, Mycotoxin Analysis.
- Standard, Chromogenic and Plant Cell Culture Media.

Diagnostic Elisa, Rapid & RT-PCR kits for Veterinary Diseases and Food Analysis comprehensive food-safety test systems—rapid tests, microbiological assays, and lab solutions—for supply chains like dairy, grains, meat, honey, and feed.

- Testing panels include mycotoxins, pesticide residues, veterinary drug residues, pathogens, hormones, illegal additives, and nutrients.

Discover our environmental monitoring solutions, including wireless temperature monitoring, data loggers, and intuitive software. Ensure precision, compliance, and peace of mind in diverse industries with our innovative products.

interscience
for microbiology

Sample Preparation:

Gravimetric dilutors

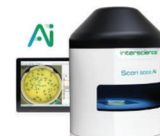

Lab blenders

Dispensing pumps

Automatic platers

Colony counters and inhibition zone readers

Real-time incubator and colony counter

Bacterial Analysis

APPLICATION & TECHNICAL SUPPORT

At Al Nawras, we understand the critical role that laboratory equipment plays in your scientific endeavors. To ensure the seamless operation and longevity of your valuable assets, we proudly offer comprehensive service and maintenance contracts, alongside with installation and calibration services tailored for laboratories across the region.

Expert Technical Support

Our team of highly skilled and certified technicians is dedicated to providing top-notch technical support. With a deep understanding of a wide range of laboratory equipment, we are equipped to address any issues promptly and effectively.

Regular Preventive Maintenance

Proactive care is key to preventing equipment downtime. Our preventive maintenance schedules are designed to identify and address potential issues before they escalate, ensuring optimal performance and reliability.

Customized Service Contracts

We offer flexible service and maintenance contracts. Choose from our range of packages to find the one that best suits your needs, whether it's an annual contract or a more comprehensive multi-year agreement.

Turnkey Projects

We offer comprehensive services from conception to completion, ensuring precision in every aspect of your lab setup. Experience excellence in laboratory design, equipment procurement, installation, training and maintenance.
